

ALWAYS ON STANDBY SPECIALIST TRANSPORT

Central Power Services can cater for all your transport requirements, from large equipment deliveries and re-locations, to small fuel top up services to name but a few. These specialist transport services are available 24 hours a day.

ALWAYS ON STANDBY SPECIALIST TRANSPORT

TRANSPORT HIRE

Have you ever hired a lorry crane, only to find that it does not quite have the reach you require, or the lifting capacity promised? Look no further.

Significant investment has been made with regard to the provision of specialist Heavy Goods transport vehicles for in house and for contract hire. The vehicles have been especially designed with on board cranes and have the following criteria:

- 11.5 metres reach (capable of 4.5 tonnes at this reach)
- 56 tonne metre crane
- 20ft ISO twist locks
- Remote controlled crane operation that enables the operator to stand next to the load at all times.
- Vehicle Satellite Tracking

GENERATOR REFUELLING SERVICE

Central Power Services offer a 24/7 refuelling service to all customers. Whilst many of the national fuel operators can offer fuel delivery services you will find that they do not wish to deliver amounts of less than 1000 litres, and even if the volume meets their minimum delivery requirements, the lead time for fuel deliveries can be several days. Obviously this is not suitable if your equipment is called upon to run and requires immediate fuel deliveries. Please call our service department to discuss all your fuel delivery requirements

Generating Confidence
