

**ALWAYS ON STANDBY**

# **UNINTERRUPTIBLE POWER SUPPLIES**

**Central Power Services offers sales, installation, service and advice in any situation where constant power is essential.**

Central Power Services excels at supply and installation packages for standalone UPS, or for Generator and UPS combined packages. In the case of combined packages we take full responsibility for the interfacing and commissioning of the Generator and UPS system.

Central Power Services can offer total power solutions to our client's problems, and we provide complete packages to protect against electricity supply break down.

# ALWAYS ON STANDBY UNINTERRUPTIBLE POWER SUPPLIES

## EVALUATION/PROJECT MANAGEMENT

Central Power Services can offer a full site survey to assist in the establishment of customer requirements. By assessing the essential electrical load, proposed equipment location, electrical distribution layout, environmental considerations etc, we can offer a detailed proposal for client approval once the full specification is determined.

## INSTALLATION

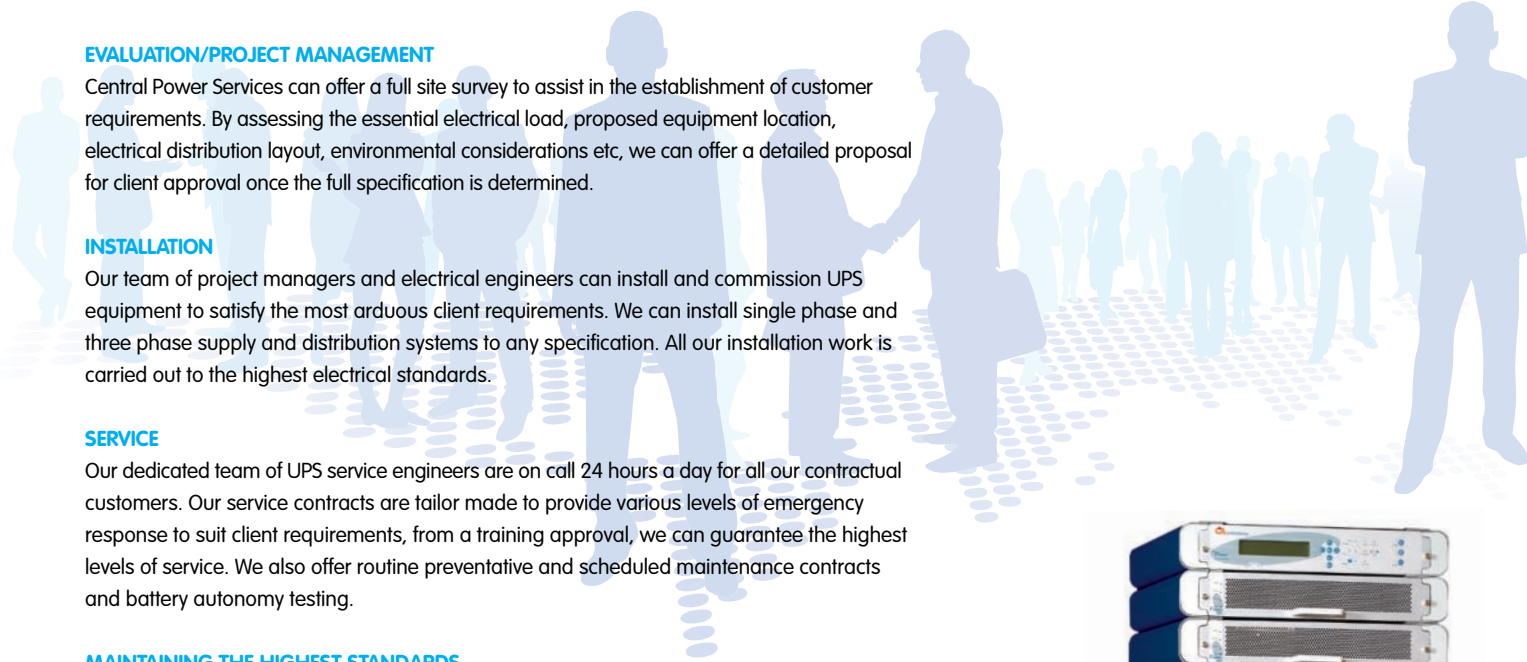

Our team of project managers and electrical engineers can install and commission UPS equipment to satisfy the most arduous client requirements. We can install single phase and three phase supply and distribution systems to any specification. All our installation work is carried out to the highest electrical standards.

## SERVICE

Our dedicated team of UPS service engineers are on call 24 hours a day for all our contractual customers. Our service contracts are tailor made to provide various levels of emergency response to suit client requirements, from a training approval, we can guarantee the highest levels of service. We also offer routine preventative and scheduled maintenance contracts and battery autonomy testing.

## MAINTAINING THE HIGHEST STANDARDS

Our UPS division is continually expanding due to our high standards of after sales service of this critical power equipment. Our proactive approach to service and maintenance has allowed us to build on our reputation and maintain a large selection of major clients. For a no obligation consultation, please contact our Service Contracts department.
